Alexandria, VA 22313-1450

Sub: Correction to Our IDS submission dated Dec 19, 2003 for the application referenced below:

Application No.	10/634,978
Filing Date	08/04/2003
First Inventor	Ramesh Dandala
Attorney Docket	2003-015

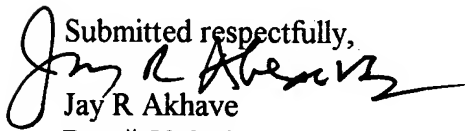

Dear Sir:

This is a correction our IDS submission submitted earlier with regard to this application, an error we have encountered in the past 15 days. First office action on this application has not been received to date.

In the submitted PTO/SB/08A in the said IDS disclosure, we had disclosed the publication date of an Italian priority filing IT MI2002A 000913 as being 04/29/2002 which is more than a year before our US filing. This publication date was shown on a page from the DEPATIS Database, also submitted along with the IDS on PTO/SB/08B

It has come to our attention that that the Italian Application has not actually been published yet. The date of the DEPATIS Database was incorrectly shown.

Please include this information in determining priority for our US application accordingly as we believe this information is material to 102 patentability for our specific submitted claims 1,2 and 3.

Submitted respectfully,

Jay R Akhave
